Indicators

Indicator	Description
	Washing phase. It comes on when the washing phase operates.
	End indicator.

Indicator	Description
	Rinse aid indicator. It is always off while the program operates.
	Half Load indicator.

Programs

Program	Degree of soil Type of load	Program phases	Consumption values 1)		
			Duration (min)	Energy (kWh)	Water (l)
 ECO 2)	Normal soil Crockery and cutlery	<ul style="list-style-type: none"> • Prewash • Wash 50 °C • Rinses • Dry 	128	0.75	11.7
	Normal soil Crockery and cutlery	<ul style="list-style-type: none"> • Prewash • Wash 65 °C • Rinses • Dry 	100 - 120	1.2 - 1.4	15 - 16
	Heavy soil Crockery, cut- lery, pots and pans	<ul style="list-style-type: none"> • Prewash • Wash 70 °C • Rinses • Dry 	130 - 150	1.3 - 1.5	13 - 15
 3)	Fresh soil Crockery and cutlery	<ul style="list-style-type: none"> • Wash 60 °C • Rinse 	30	0.9	9
 4)	All	<ul style="list-style-type: none"> • Prewash 	14	0.1	4

1) The pressure and the temperature of the water, the variations of the mains supply, the options and the quantity of dishes can change the values.

2) With this program you have the most efficient use of water and energy consumption for crockery and cutlery with normal soil. (This is the standard program for test institutes).

3) With this program you can wash a partial load with fresh soil. It gives good washing results in a short time. It is not recommended to use detergent tablets in the Quick 30 program.

4) Use this program to quickly rinse the dishes. This prevents the remaining food to bond on the dishes and bad odours to come out from the appliance. Do not use detergent with this program.

Information for test institutes

For all the necessary information for test performance, send an email to:

info.test@dishwasher-production.com

Write down the product number (PNC) that is on the rating plate.

Before first use

1. Fill the rinse aid dispenser.

2. Open the water tap.

- 3. Start a program to remove any processing** residuals that can still be inside the appliance. Do not use detergent and do not load the baskets.

Adding rinse aid

The rinse aid helps to dry the dishes without streaks and stains. It is automatically released during the hot rinse phase.

Daily use

1. Open the water tap.
2. Set the correct program for the type of load and the degree of soil.

Make sure that the appliance is in Program selection mode.

- If the rinse aid indicator is on, fill the rinse aid dispenser.
- 3. Load the baskets.
- 4. Add the detergent.
- 5. Start the program.

Adding detergent

If the program has a prewash phase, put a small quantity of detergent also in compartment B.

Adding multi-tablets

- Set the rinse aid dispenser to the lowest position.

Program selection mode

The appliance must be in Program selection mode to start a program. If the control panel does not show this condition, use the Reset function.

Reset

With Reset you can cancel the running program. The appliance goes back to the Program selection mode.

Starting a program

Open the water tap, close the door, select a program, press .

Option Half load 1/2

1. Set the program.
2. Press 1/2, the related indicator comes on.
3. Press to start the program.

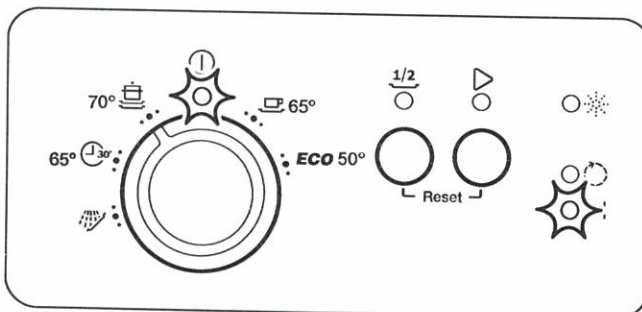

This option is available with **ECO**, and .

With this option you can wash a small load of tableware and cookware. The option decreases the program duration and the consumption of water and energy. Load both baskets and use less quantity of detergent.

Opening the door while the appliance operates

If you open the door while a program is running, the appliance stops. When you close the door, the appliance continues from the point of interruption.

At the end of the program

The indicator  comes on. If you do not deactivate the appliance within 5 minutes all indicators goes off. This helps to decrease energy consumption.

Turn the knob to . Close the tap.

For the better drying results keep the appliance door ajar for some minutes before you remove the dishes. Let the dishes cool down before you remove them from the appliance. Hot dishes are easily damaged.

Hints and tips

General

The following hints will ensure optimal cleaning and drying results in daily use and also help to protect the environment.

- Remove larger residues of food from the dishes into the waste bin.
- Do not pre-rinse dishes by hand. When needed, use the prewash program (if available) or select a program with a prewash phase.
- Always use the whole space of the baskets.
- When loading the appliance, make sure that the dishes can be completely reached and washed by the water released from the spray arm nozzles. Make sure that items do not touch or cover each other.
- You can use dishwasher detergent and rinse aid separately or you can use the multi-tablets (e.g. "3in1", "4in1", "All in 1"). Follow the instructions written on the packaging.
- Select the program according to the type of load and degree of soil. With the ECO program you have the most efficient use of water and energy consumption for crockery and cutlery with normal soil.

Using rinse aid and detergent

- Only use rinse aid and detergent for dishwasher. Other products can cause damage to the appliance.
- Detergent tablets do not fully dissolve with short programs. To prevent detergent residues on the tableware, we recommend that you use the tablets with long programs.
- Do not use more than the correct quantity of detergent. Refer to the instructions on the detergent packaging.

What to do if you want to stop using multi-tablets

Before you start to use separately detergent and rinse aid do the following procedure.

1. Make sure that the rinse aid container is full.

2. Start the shortest program with a rinsing phase. Do not add detergent and do not load the baskets.
3. Adjust the released quantity of rinse aid.

Loading the baskets

- Only use the appliance to wash items that are dishwasher-safe.
- Do not put in the appliance items made of wood, horn, aluminium, pewter and copper.
- Do not put in the appliance items that can absorb water (sponges, household cloths).
- Remove remaining food from the items.
- Make soft the remaining burned food on the items.
- Put hollow items (cups, glasses and pans) with the opening down.
- Make sure that cutlery and dishes do not bond together. Mix spoons with other cutlery.
- Make sure that glasses do not touch other glasses.
- Put small items in the cutlery basket.
- Put light items in the upper basket. Make sure that the items do not move.
- Make sure that the spray arm can move freely before you start a program.

Before starting a programme

Make sure that:

- The filters are clean and correctly installed.
- The spray arms are not clogged.
- There is dishwasher rinse aid (unless you use multi-tablets).
- The position of the items in the baskets is correct.
- The programme is applicable for the type of load and for the degree of soil.
- The correct quantity of detergent is used.
